CHOCKFAST CHOCKING MATERIALS

Dear Mr. Wilson:

You must have received the copy of Mr. John H. White's letter to us dated February 28, 1978.

So far as our classification requirements are concerned, we would agree to the use of the subject materials for mounting all sizes and types of main and auxiliary marine machinery on the following conditions:

- 1) The owners of the ship(s) concerned have no objection to using it.
- 2) The chocking is performed in conformity with your recommended procedures and to the satisfaction of our attending Surveyor(s).
- 3) Consultation should always be made with the engine and gear maker(s) beforehand with a view that their approval can be obtained.

## INTEROFFICE MEMORANDUM

TO: All CHOCKFAST Distributors  
FROM: J. Murray Wilson  
DATE: April 3, 1978

Through the efforts of John White we now have the approval of the China Corporation Register of Shipping for the use of CHOCKFAST. You will note that no<sub>2</sub> parameters are stated and so you should normally use 35 kp/cm<sup>2</sup>, 70°C (500 psi, 160°F) as the limits.

In addition to thanking John we welcome him and his new company as our distributor in Hong Kong and environs.

  
J. Murray Wilson
