Ref.: Application of Phillymastic TG-7B  
in Cargo Tank Supports of Liquefied Gas Carriers

Dear Sirs,

We herewith confirm that we agree to the application of Phillymastic TG-7B (produced by Philadelphia Resin corporation) as filler material in cargo tank supports of liquefied gas carriers. This filler material has been approved by us in 1980 for service temperatures down to - 110°C.

Yours faithfully,

GERMANISCHER LLOYD

 F. Westphaling
