Our ref.: 95 MM 28
Date: 7 February 1995

Atten.: Mr. Bruce S. Shipley / Chief Engineer

Dear Sirs,

Re.: Use of CHOCKFAST GRAY for Auxiliary Machineries

With reference to your letter dated 19 January 1995, we would like to inform you that we have no objection to the use of "CHOCKFAST GRAY PR-610FR" for the non-critically aligned auxiliary machineries such as deck winches, pumps and machineries on common bed plate, where the chocking works are so designed and conducted as to comply with your recommendations and technical instructions.

Whenever the technical standard is revised, you are kindly requested to send us the documents concerned for our reference.

With best regards.

Yours faithfully,

(M. Oka)
General Manager of
Machinery Department
